BermPac®

Portable Spill Berms

The BermPac® provides a safe, easy, and cost-effective solution for spill containment aimed at helping you prevent costly incidents. With common sizes range from 1m to 15m, PacTec can manufacture any custom size needed for your application. BermPacs® are offered in a variety of materials that are UV and chemical resistant, flexible, portable, lightweight, and durable, and are perfect secondary containment solutions.

"One phone call to PacTec, and I was sold! They are responsive, friendly and provided what I needed in very short order. Their customer service is top notch and the flexibility they offer is second to none!"

- Foreman, Epsilon Systems

"We are very pleased with the product quality and durability of PacTec's spill containment berms. I'm convinced PacTec delivers the best value around for our money."

- Project Manager, PWE

Features:

- ▶ Many material choices

Pop-Up

BermPac® with pop-up internal brackets

Engineered as a single unit, the Pop-Up BermPac® features permanently attached interior folding brackets that allow its sidewalls to be raised and lowered with ease. It's an effective alternative to our bracketed solutions, allowing for easy drive-on/drive-off.

Features:

- ▶ Made from a variety of UV, chemical, and acid-resistant materials
- ▶ Many standard and custom sizes available
- ▶ Company logo can be added
- ▶ Other accessories available (See last page)

Advantages:

- ▶ Incredible time saver
- ▶ Exceptional durability
- ▶ Easy to set up, move, and dismantle
- ▶ Single-piece construction

Hinge Bracket

Easy to Use Hinge Bracket BermPac®

Patented

When it comes to ease of use in spill containment, look no further than PacTec's Hinge Bracket BermPac®. The integrated hinge brackets quickly snap into the upright position to provide ultimate spill protection without presenting a trip hazard. The brackets can also be easily removed and replaced if damaged in the field. Manufactured using a variety of chemical and acid-resistant materials, these berms fold to a compact size for transport to the job site. We keep many standard sizes in inventory for quick delivery to you.

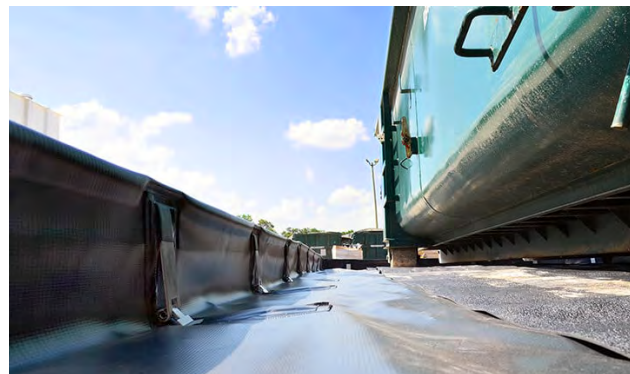

Features:

- ▶ Custom hinge locks when in upright position
- ▶ Brackets can be removed/replaced
- ▶ Many material choices available
- ▶ Many standard and custom sizes available
- ▶ Company logo can be added

Advantages:

- ▶ Prompt manufacturing lead time
- ▶ Portable, reusable, and repairable
- ▶ Durable and lightweight
- ▶ Easy to set up, move, and disassemble

Collapsible

The compact, portable BermPac® solution

This compact, portable and collapsible BermPac® is small enough to fit behind the seat of your vehicle when rolled and strapped. It sets up in seconds, and is available in multiple sizes. Also, collapsible BermPacs® are made of a lightweight, durable, and chemical-resistant 18 oz. vinyl.

Features:

- ▶ Instant set-up
- ▶ Made from quality 18 oz. vinyl
- ▶ Multiple sizes available
- ▶ Ideal for most drips and spills

Advantages:

- ▶ Compact & portable
- ▶ Collapsible and stores easily in small spaces
- ▶ Cost effective
- ▶ Small footprint with large capacity
- ▶ Keep your site safe and clean
- ▶ Reduce risk to people, property, and environment
