

LLWR Packaging Supply & Associated Services Framework Agreement – Nov 2015

Technical and Professional Ability – TP001 – Previous Contract for supply and services.

Contract No. 2 – Magnox RSRL Harwell & Winfrith

- a) Name of customer organisation – **Magnox – RSRL Harwell.**
- b) Contract start date – **October 2011**
- c) Contract completion date – **Numerous individual contracts to supply IP1 / IP2 SSP's for various waste streams to support decommissioning operations at the Harwell site from 2011 to present.**
- d) Estimated contracts value between 2011 -2015 – **circa £1m**

PacTec have provided Magnox RSRL Harwell and Winfrith with IP1 / IP2 flexible packaging since 2011 in support of various projects on the site that has resulted in large areas of the Harwell site being remediated, de-licensed and returned for 'green field' use.

PacTec's flexible packaging solutions continue to be instrumental in expediting the packaging, transport and disposal of VLLW and LLW from the Harwell site providing the 'fit for purpose', cost effective and environmental sustainable solution to meet the Nuclear Decommissioning Authorities (NDA) decommissioning mission for the site.

PacTec continues to support the decommissioning mission at Harwell together with the RSRL Winfrith site utilising PacTec's expertise and extensive knowledge in the packaging and disposal of radioactive material.
